Oleg Mogilin

Prague · +420 724 382 088 · oleg77565@gmail.com · linkedin.com/in/oleg-mogilin · github.com/oleg-sith

I study Informatics at Charles University. I combine strong technical skills with an understanding of how business works, whether in a small company like LASAR or a large one like Mattoni 1873. There, our Gen Z strategy became the first project in the history of the Mattoni Eagles programme that the company chose to implement. I work with AI every day, speak five languages and have studied in Prague and Munich.

Experience

Mattoni 1873 — Trainee **Sep 2026 – Present**

Implementing the strategy "Mattoni and Sport for Gen Z"

- The company selected our strategy from Mattoni Eagles 2026 for implementation, **a first in the programme's history**. I was brought on as the idea's author and project lead to put it into practice.

Czech Academy of Sciences — Data Analysis Intern **May 2026 – Present**

Research internship supervised by doc. Jiří Vomlel

- Analysing data from the *Society of Distrust 2023* survey (3 880 respondents) on trust in institutions and disinformation narratives in Czech society.
- Used PCA and factor analysis in R to reduce 98 questions from 9 thematic groups to 19 variables for Bayesian network models.

LASAR — iOS & Web Developer **Jul – Oct 2024**

Part-time

- Led development of an iOS app that notifies users about upcoming events, from concept to a release-ready build; designed the user interface and the overall design.
- Developed the company website on WordPress as part of a team.

CPlugin — C# Developer **Jan – Feb 2023**

Internship: C# (Blazor) web applications for Forex trading platforms

Projects & Competitions

Mattoni Eagles 2026 **Aug 2026**

- Two-week intensive programme by Mattoni 1873 for university students of all fields. The company selected 15 students from the applicants for their courage and creativity.
- Lectures and workshops with Mattoni and external experts, qualitative research with Kantar and a visit to the bottling plant in Kyselka.
- In a team of three, we explored new ways for the Mattoni brand to communicate with Gen Z and designed the strategy "Mattoni and Sport for Gen Z". I built a working prototype of the *Mattoni Hydro* hydration calculator to support it.

Rakathon 2026 — our team selected to compete **Oct 2026**

- Prestigious AI hackathon against cancer under the auspices of the Czech Prime Minister and the Minister of Health (Motol University Hospital, Charles University, CTU and others), tackling current problems in oncology practice.

Argus — GreenHack 2026 **2026**

- A platform that supervises fleets of AI agents in real time and picks the right model for each task. In simulation it cut costs by 78 % and time by 52 % compared with running the strongest model on everything, with no loss in quality.

Young Entrepreneurs Summer School — Tallinn **2026**

- Entrepreneurship programme on founding your own startup, with lectures by leading Estonian entrepreneurs.
- Hackathon with the Estonian Olympic Committee.

Other **2022 – 2025**

- HackaTUM 2025 (Munich) · Robosoutěž 2022 and 2023 — a basketball-playing robot built and programmed as a team · Physics Olympiad, regional round

Education

Charles University **2026 – 2029**

B.Sc. in Informatics *Prague*

Technical University of Munich (TUM) **2025 – 2026**

B.Sc. in Mathematics *Munich*

Languages & Skills

Languages: Czech C1–C2, English C1, German C1, Ukrainian C2, Russian C2
AI: Claude and other LLMs for data analysis, research and prototyping; designing and orchestrating AI agents
Data: R, Python; PCA, factor analysis, statistical modelling
Programming (8+ years): C++, Python, C#, Swift
